

GPDF, GPDB Exhaust valve

GPDF and GPDB are exhaust valves with universal application in the area of comfort ventilation. GPDF has a spring mounting and GPDB a bayonet mounting. GPDF and GPDB have a fixed setting for the basic flow.

Quick Selection

Size	Connection mm	Air flow range l/s at sound level		
		25 dB(A)	30 dB(A)	35 dB(A)
GPD(F,B)-100-C	100	33	40	48
GPD(F,B)-125-C	125	52	62	75
GPD(F,B)-160-C	160	80	97	115
GPDB-200-C	200	115	140	160

Specifications

- CleanVent coating as standard
- Exhaust valve with universal application
- Simple and symmetrical design
- Easy to install
- Manufactured of steel

Application, material and instructions

Application

GPDF and GPDB are exhaust valves with universal application in the area of comfort ventilation. GPDF has a spring mounting. GPDB has a bayonet mounting. GPDF and GPDB have a fixed setting for the basic flow.

Both variants consist of an inlet ring and a valve cone. The inlet ring has a foam rubber seal against the mounting ring/wall.

The devices have a simple and symmetrical design, which matches all interiors, and are easy to install.

GPDF and GPDB have a lockable adjustment and are easily pre-set to the estimated pressure drop for a given air flow.

GPDF/GPDB can also be used as a supply air terminal device for a low air flow in areas where no particular requirements are imposed on the air flow or its diffusion, for example in changing rooms and apartment storage areas, etc.

When changing from older GPD to GPDF the old GP-ring can be used except ring size 012 ($d=125$). In such cases GPDF-100-125 can be used.

Material and surface finish

The valve is made of hot galvanized steel sheet and it meets the requirements for corrosivity class C2 in accordance with EN ISO 12944-2.

The valve is powder coated for a high surface finish and good impact and scratch resistance.

Standard colour is white (RAL9010). CleanVent coating as standard. Other colours on request.

Instructions

Directions for installation, adjustment and care are set out in detail in our technical instruction which accompanies each product. The instruction is also accessible on www.flaktgroup.com.

Technical data and dimensioning

For complete dimensioning details, please see FläktGroup product selection program. Contact our nearest sales office for further information.
